Re: Questions related to Mecosta County Parks Engineering Services RFQ

A deadline was placed on all consultants for questions regarding the parks RFQ to be submitted by March 15<sup>th</sup> 2019 at 2:00 pm. 3 separate entities called with an inquiry regarding the same subject prior to this deadline. Each inquiry was related to whether or not the consultant was required to preform all functions of the RFQ, or if outsourced work would be accepted. The following Questions and Answers should help bring clarity to this topic.

**Question:** Our company is only able to perform a couple of the services listed. Can we bid just those services?

**Answer:** No. We are searching for one (1) entity that can preform the majority of services listed, with the possibility of one or two services being sub-contracted. The contract will be awarded to one (1) entity for all services listed and not broken down by individual categories to multiple consultants.

**Question:** We can perform all but one or two of the functions described. Are we able to subcontract those specific services?

**Answer:** Yes. There is a paragraph on Page 8 of the RFQ that briefly outlines this process. Subcontractors must be pre-approved for any work they are anticipated to provide. Rates shall be provided for all services on the rate sheet with any services being subcontracted noted as such. Qualifications packets should be supplied for any subcontractors listed. Consultant will be responsible for those performing work on your behalf. Businesses that are able to complete all tasks without subcontracting any portion of work may be given preference during the selection process.
